Episode 1 - 10

Award-winning German entrepreneur Fridtjof Detzner sets off to look for people with visionary ideas across Asia. He meets with start-up founders and activists who work on innovative and inspiring solutions to pressing problems: artificial ice-stupas fighting climate change, revolutionary materials to save the world's oceans, smart apps to fight hunger...

Of course, entrepreneurship isn't always glorious. It requires a ton of sacrifice and total dedication. We also show the challenges founders need to overcome as well as the troubles and opportunities in a digitized and globalized world. Showcasing unique characters, their stories and the solutions to some of the world's most intractable issues that they offer, we feel the pulse of the Asian startup ecosystem and what makes it so special. Come meet people and companies working on innovative and inspiring solutions in Founders' Valley.
